# Empowering Employees for a Better Experience

Your employees are your greatest asset. Designing a positive employee experience allows your employees to more easily focus on what's important for business growth: innovation, productivity and customer satisfaction.

AVUITY Mobile empowers your employees with a new level of engagement that enables them to easily find, book, and visualize space in the palm of your hand. Let AVUITY help you create a more flexible and agile workplace for your modern workforce.

▶ Use mobile desk and room booking to search based on size, time, or amenities, and reserve spaces in real time via interactive maps.

▶ QR code support available for workstation booking, check-in and release.

▶ Integrate with your existing calendar platforms (O365, Google Calendar).

▶ Overlay with sensor occupancy data for more accurate usage.

▶ Upload branded colors and logos, as well as customized images of your space.

▶ Allocate user roles to configure desk assignments, restrict booking by number of days or hours during a week and support booking via administrator.

▶ Save and view favorite spaces to eliminate wasted time and allow for easier booking.

Navigating Made Easy with Maps and Signage

At AVUITY, we develop technology that creates a better work environment to foster increased efficiency and enhanced employee experience. User interface and ease of use is important when employees need to easily and quickly find and book appropriate spaces.

Interactive Map displays your floorplan in real time with distinct visual cues to help your employees find the easiest path to any area, amenity or point of interest. It ensures they get to where they need to go without wasting time.

▶ Show your customized floorplan on a centralized display or touchscreen.

▶ Overlay calendar and sensor occupancy data to view availability in real time.

▶ View available vs occupied space and identify key points of interest.

▶ Use wayfinding to make locating spaces easier.

▶ Filter rooms by amenities, including monitors, projectors and whiteboards.

▶ Brand your maps and floorplans with corporate colors and logos.

VuBook leverages digital displays and a mobile app to allow users to locate and book unoccupied space instantly and on-the-spot. It pulls data from both sensors and your existing calendar platform.

▶ View meeting room calendars and book on the fly.

▶ Signal room availability with red and green lights.

▶ Add custom branding, including logos and colors.

▶ Enjoy wayfinding support that simplifies the search for space.

▶ Use on a wide variety of devices, including your own Android or iOS tablets.
